NEW! No. 2329 Virginia Rectifier-Type Electric—This dramatic new loco is built from GE blueprints of the electric loco that use mercury rectifiers to convert AC power to DC for extra efficiency! Lionel's model has a headlight on each end, neonatal horns, Wipac-Function, Paralograph and is made to take power from category wired loco 17½" long. \$33.90

NEW! No. 175 Rocket Launcher—Duplicates rocket launching by remote control! Illuminated remote control panel has coast-down mechanisms and firing button. Rocket with safety nose included. Base 11" x 11" tall and stands 17" high. (Car not included.) \$17.95
No. 175-50 Extra rocket. \$ 1.00

No. 154 Flashing Highway Signal—A popular Lionel accessory! Red lights blink alternately as train approaches. Action ceases when train has passed. Signal 9" high. \$5.50

NEW! No. 6805 Atomic Energy Disposal Car—Atom-smoking prodigious radioactive byproducts which must be transported to almost places where they can do no harm. This car is especially designed to do just that. Blinking red warning lights indicate "danger." Car 11" long. \$6.95

The progress of Railroadng
looks to the future!

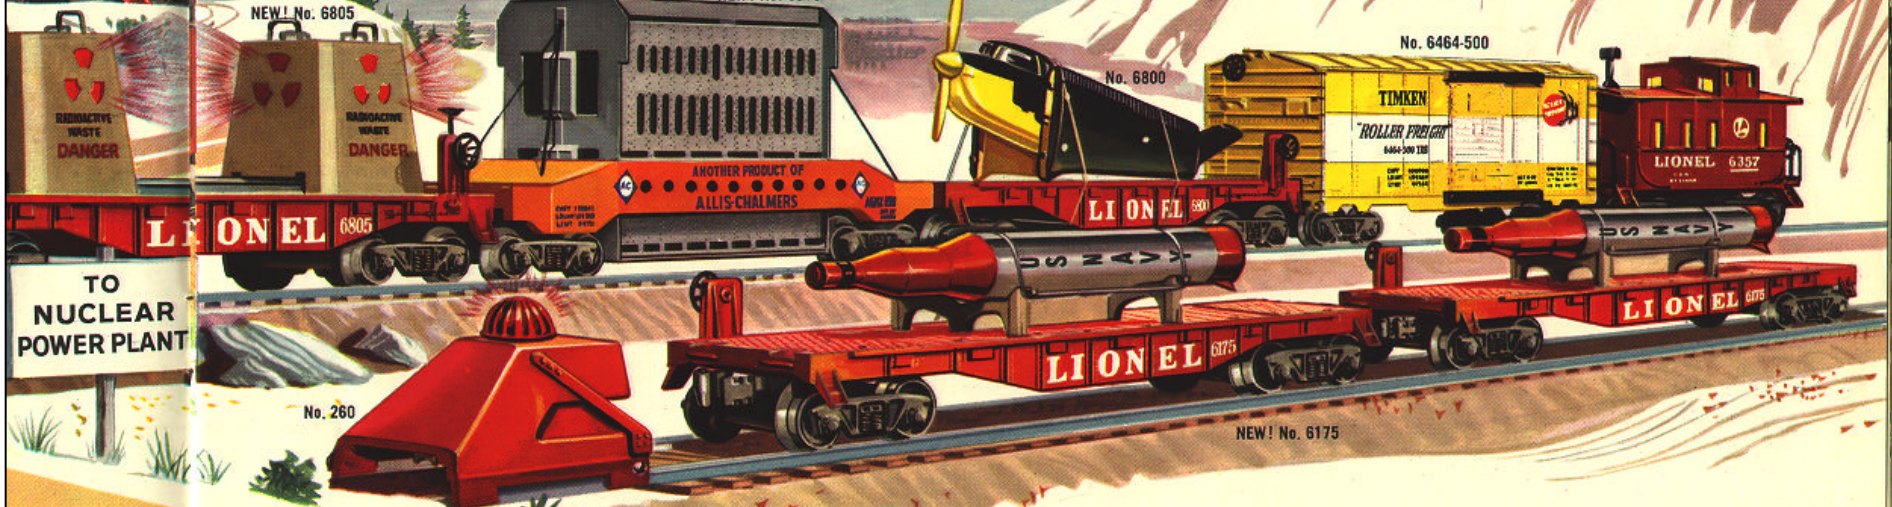

PRESENT! THE "VIRGINIAN" RECTIFIER-TYPE ELECTRIC LOCOMOTIVE WITH TOMORROW'S SUPER "O" FREIGHT... OUTFIT No. 2505W

No. 2505W SUPER "O" VIRGINIAN RECTIFIER FREIGHT \$59.95

HORN, HEADLIGHTS, MAGNE-TRACTION — NEW ATOMIC ENERGY DISPOSAL CAR — NEW ALLIS CHALMERS CAR

Never before so much newness packed into one train set! Here's the most modern of all locos — the unique "Virginian" electric that converts AC to DC for maximum efficiency! Here's the new atomic energy disposal car complete with blinking red warning lights and the up-to-the-minute Allis Chalmers car carrying a huge removable condenser shell for an atomic power plant... all rolling down the newest, the finest track ever built... Super "O". Train measures 5 ft., 6 1/4 ins. long.

Lionel's No. 2505W 5-Car Train Set includes:	If bought separately
No. 2329 New "Virginian" Rectifier-Type Electric.....	\$35.00
No. 6805 New Atomic Energy Disposal Car.....	6.95
No. 6519 New Allis Chalmers Car.....	5.95
No. 6800 Airplane Car.....	4.95
No. 6464-500 Timken Box Car.....	5.95
No. 6357 Illuminated Caboose.....	5.95
12 Sections No. 31 Super "O" Curved Track.....	6.00
3 Sections No. 32 Super "O" Straight Track.....	1.50
No. 48 Insulated Straight Track Section.....	1.00
No. 39-5 Complete Operating Set for uncoupling and operating cars.....	3.50
Lubricant and Instruction Book.....	

Atomic Energy Disposal Car—Carries radioactive by-products to distant places where car is especially dangerous. Blinking red warning lights. \$6.95

No. 260 Illuminated Bumper—For spurs, freight sidings and passenger terminals... anywhere you have a "dead end." Easily installed, requires no special wiring. \$2.50

NEW! No. 6519 Allis Chalmers Car—A brand-new car for the Atomic Age authentically reproduced in this true-to-scale model. Carries a simulated condenser and heat exchanger shell used for atomic power installations. Car 10 7/8" long. \$5.95

NEW! No. 6175 Rocket Car—Carries an amazingly realistic model of the ICBM. Nose piece made of polyurethane foam for safety. Especially designed for use with No. 175 Rocket Launcher. Car 11" long. \$5.95

No. 6800 Airplane Car—Carries an outstanding model of a modern, single-prop plane. Wings are retractable, can be assembled into flying position when plane is removed from car. Car 11" long. \$4.95

No. 6464-500 Timken Box Car—Colors and markings from Timken blueprints! A rolling reminder of a great roller-bearing company. Sliding doors. Car 10 1/2" long. \$5.95
